Searching for an internship. Spent many years gaining collaboration and problem-solving skills in the labor and coaching industry. Always wanting learning more about computer science and development.

Job Experience

Software Development Intern – Sandhills Global | April 2022 – Present

- Redesigned server-side code that increased hosted service process efficiency.
- Helped develop and worked with both SOAP and REST API's.
- Supported design and helped build a new customer portal that increased retention.
- Communicated across multiple teams to improve workflow efficiency.

Facilities Management - Crossroads Bible Church | April 2019 - June 2021

- Prepared campus for events.
- Mapped and created diagrams with Sketchup.
- Worked with team members to keep the facility clean.
- Quickly learned how to use many different tools to complete projects.
- Designed and built systems to store and keep track of inventory. This increased efficiency across all aspects of work.

Coach - Skyhawks Sports Camp | May - August 2018

- Gained experience working with children, parents, and the demands of corporate office.
- Coached multiple sports, creating fun ways to teach the curriculum and keep interest of attendees.
- Managed the needs of 30+ children at varying levels of sports knowledge and attention.
- Used communication and leadership to teach important qualities to campers.

Extracurriculars

Competitive Coding Club President | 2022-2023

- Help new students feel confident in their coding ability. Remind fellow students that coding is a creative field, so it is best to not compare themselves to others.
- Lead monthly competitions to engage and compete amongst club members.
- Craft and lead meetings that introduce new students to different coding problems.

New City Justice and Care Team | 2022-Present

- Serve the local schools across several different projects by supporting teachers and throwing different events for the students.
- Help connect struggling individuals with local services that they need.
- Assist the temporarily unhoused members of downtown Phoenix by providing temporary relief and financial assistance.

Education

Grand Canyon University | 2019 – Graduating 2024

- Junior studying **Computer Science** with an Emphasis in Entrepreneurial Studies
